<https://www.linkedin.com/in/cristian-rendón-4b474716b>

Currently pursuing an MEng degree at EAFIT University, focused on computational mechanics, computational geometry and manufacturing mechanics.

Passionate engineer, with a predilection for research and science, always curious and attentive with a great level of receptiveness. Constantly strengthens and renovates his knowledge, besides, works under pressure in any environment, adapts quickly and gives exceptional results.

Regarding the technical skills, has knowledge with high levels of proficiency in the following topics: Computer-Aided Engineering (CAE), Computer-Aided Design (CAD), Computer-Aided Manufacturing (CAM), Finite Element Method (FEM), Computational Mechanics and others.

Willing to improve and learn in every aspect, enjoys academia together with science and mechanics.

Jobs

Software Engineer

Manufactura Cohesiva • Remote

August 2020 - **Current**

Internship Trainee

University of Melbourne

January 2019 - July 2019

Research Fellow

Universidad EAFIT

June 2017 - **Current**

Education

Master of Science Computational mechanics

Universidad EAFIT

2020 - 2022

Bachelor's degree Mechanical Engineering

Universidad EAFIT

2015 - 2020
